

OSCE

In response to your request, we would like to highlight that the OSCE Office for Democratic Institutions and Human Rights (ODIHR) and the OSCE High Commissioner on National Minorities (HCNM) have on 12 May 2014 released the report from the joint Human Rights Assessment Mission the two institutions sent to Ukraine in early March 2014. The Human Rights Assessment Mission was deployed following a request by the Government of Ukraine on 3 March. The ODIHR section of the report identifies a significant number of serious human rights violations, including murder and physical assaults, as well as cases of intimidation and enforced disappearances. The victims of these were primarily proMaidan activists and journalists, and those in Crimea also included Ukrainian military personnel and members of the Crimean Tatar community.

You will find the relevant press release by OSCE here <http://www.osce.org/odihr/118454>, and the Report itself here <http://www.osce.org/odihr/118476>.
