III. MOTIVATION LETTER (600 word limit, must be included below and not in a separate e-mail or as an attachment)

Willemstad, August 28, 2018

To Whom It May Concern.

Dear Madam, Sir,

Be the change you want to see in the world! The process leading to change can be very overwhelming at times. In anthropology, we tend to see change as the inevitable trait for development of a human being and its society. Whether these changes occur deliberately or are the consequences of some other action does not matter. The key factor is the way people deals on an individual and collective level with what is going on at that moment in time. Even when the change is resisted or not desired, that action will nonetheless lead to a change, making change an inevitable process in the human experience.

My name is Ms. Shulaika Girigori, born and raised in the Dutch Caribbean Island of Curaçao and trained in Social Sciences. Over the years, I have specialized in social, political, cultural and human rights matters within the African Diaspora and with primarily interest for Latin America and the Caribbean region. It is my pleasure to write a letter for the application to the Working Group of Experts for People of African Descent, member from Western European and other states. I wish to contribute to the change I want to see in the world through my contributions to the Working Group of Experts for People of African Descent.

Over the past eight years I have supported many foundations through my work in the African Diaspora on human rights issues for People of African Descent. I attended the Fellowship Program of the Working Group of Experts for People of African Descent in 2014. In 2015 I joined the Office of the High Commissioner of Human Rights as a Human Rights Officer for the duration of three months. During these experiences, I was privileged to learn to work with the UN Mechanisms enabling me to gain more knowledge in the functioning of the UN entities collectively.

Prior to my work experience at the Office of the High Commissioner for Human Rights, I gained experience making a career in academic research, education, management and organization and policy making. I have worked in both local as well as international field on humanitarian issues, on education as a preventive mechanism, academic research in social and political affairs, in the formation and implementation of national policy and in different fields regarding humanitarian development.

Having worked with different non-governmental organizations for various causes regarding People of African Descent has provided me with extensive knowledge on the importance and the methods to lobby and liaise with stakeholders to achieve the desired outcome. Human rights for People of African Descent are not and should not be optional. While acknowledging the many positive developments for People of African Descent around the
world it is also imperative, to my believe, to be aware of the deterioration of tolerance and justice towards People of African Descent these past few decades in many societies around the globe. Such actions should and cannot become the norm towards treatment of People of African Descent.

It is for this reason that I found it imperative for the mandate of the Working Group of Experts to be carried out provided by as many assistances of the GO’s, NGO’s and academia as well. I believe that through my application for the application to the Working Group of Experts on People of African Descent, member from Western European and other states, and with my professional experiences from all the above mentioned, I could contribute constructively to the change that I wish to see in the world.

Sincerely,

Ms. Shulaika Girigori
