7. The Consultative Group has decided to present its recommendations relating to the above-mentioned mandates in an addendum to its report due to the very short time available for launching the calls for applications and the finalization of the interview process. The Group informed the President of the Human Rights Council of its decision in a letter dated 6 January 2020.

II. Process

8. The application period for the submission of applications for the thirteen initially foreseen mandates opened on 6 September 2019. The call for applications closed on 17 October 2019 for the following nine mandates: EMRIP member from Asia; Independent Expert on the effects of foreign debt and other related international financial obligations of States on the full enjoyment of all human rights, particularly economic, social and cultural rights; Independent Expert on the enjoyment of all human rights by older persons; Special Rapporteur on contemporary forms of slavery, including its causes and its consequences; Special Rapporteur on extreme poverty and human rights; Special Rapporteur on the right to food; Special Rapporteur on the rights of indigenous peoples; Special Rapporteur on the sale and sexual exploitation of children, including child prostitution, child pornography and other child sexual abuse material; and Special Rapporteur on the situation of human rights defenders.

9. Due to the initially limited number of applications received, the application period was extended until 27 October 2019 for the following four mandates: EMRIP member from the Arctic; Independent Expert on the situation of human rights in Somalia; Special Rapporteur on adequate housing as a component of the right to an adequate standard of living, and on the right to non-discrimination in this context; and Special Rapporteur on the situation of human rights in Myanmar.

10. The Consultative Group considered 152 individual applications from 130 eligible candidates submitted for the aforementioned 13 vacancies in accordance with the relevant paragraphs of Human Rights Council resolution 16/21.² The applications of the eligible candidates were made public on the

designated OHCHR web page³ as provided for in paragraph 22 (b) of the annex to Council resolution 16/21 (see annex I of this report).

11. In accordance with established practice, it was decided that each member of the Consultative Group would individually rank and propose a list of candidates for each vacancy drawing on the written applications received, reflecting on their stated qualifications, relevant experience, expertise, personal integrity, availability and motivation. As a result of this ranking exercise, the Group established a shortlist of candidates to be interviewed in compliance with relevant criteria and provisions of Human Rights Council resolution 5/1, decision 6/102, resolution 16/21 as well as relevant Council resolutions relating to the specific mandates under consideration.

12. The Consultative Group held 19 formal meetings on 6, 11, 12, 13, 18, 19, 20 and 21 November, 13 and 20 December 2019, and 16 January 2020 to consider and interview candidates for the aforementioned thirteen vacancies. Due to work-related scheduling conflicts, Mr. Abbas Kadhom Obaid Al-Fatlawi participated in the shortlisting for all mandates and in the interviews for all candidates shortlisted for the EMRIP member from the Arctic and partly in the interviews for candidates shortlisted for other mandates.

13. In its organizational meeting of 30 May 2019, the Consultative Group decided that the chairing function for the interview and selection process would be equally shared among its five members on a rotational basis, rotating after every mandate, according to the overall number of mandates to be considered during the period 1 April 2019 to 31 March 2020. However, due to the number of unforeseen vacancies and the extremely high number of interviews to be conducted, a series of work-related scheduling conflicts arose for some members of the Consultative Group. Consequently, the chairing arrangements were decided by the Consultative Group on the basis of the availability of its members. The chairing arrangements for the specific mandates under consideration are noted below.

14. The members of the Consultative Group took into full consideration the technical and objective requirements as stipulated in paragraphs 39-41, 44-46, 48, 50-51 of the annex to Human Rights Council resolution 5/1, decision 6/102 and paragraph 22 of resolution 16/21, and Council resolutions relating to the specific mandates under consideration. In addition, for the vacancies in the Expert Mechanism on the Rights of Indigenous Peoples, the Group took into consideration the recommendation made in paragraph 6 of Council resolution 33/25 that, in the selection and appointment process, due regard be given to recognized competence and experience in the rights of indigenous peoples, experts of indigenous origin and gender balance, in addition to the criteria for nominating, selecting and appointing mandate holders established by the Human Rights Council in paragraphs 39 to 53 of the annex to its resolution 5/1. Accordingly, the Group gave due regard, *inter alia*, to the indigenous origin of the candidates as per their self-identification in their application forms.

15. On gender balance, the Consultative Group duly took note of the Guidelines on Gender Parity⁴ adopted by the 2015 Consultative Group, whereby a quota was established so as to list no more than three candidates out of five of the same sex. The current Consultative Group decided not to adopt these Guidelines formally but to take them into consideration during the interview process.

16. In connection with the aforementioned, the Consultative Group affirmed its commitment to ensuring that the most qualified candidates are recommended to the positions under consideration, that the process of selection is objective and transparent, ensures equal treatment of all candidates,

and that the recommendations to the President are public and substantiated pursuant to Council resolutions 5/1 and 16/21.

17. Based on the decision of the Consultative Group on the actual or perceived conflict of interest that may arise when a member of the Group has the same nationality as an eligible candidate, Mr. Alejandro Dávalos (Ecuador) did not participate in the shortlisting of the candidates to be interviewed for the mandate of the Special Rapporteur on the situation of human rights in Myanmar. In view of the fact that the candidate from Ecuador was not shortlisted, Mr. Dávalos subsequently took part in the interview process.

18. The Consultative Group discussed the issue of the impact of candidates lobbying members directly and decided to follow a self-disclosure procedure in situations where any member has been approached with regard to the applications of candidates. The Consultative Group decided to strongly discourage meetings of individual candidates with members of the Group, and inform candidates that this is the practice of the current Group. However, the Group decided that – if a meeting takes place – the candidate would be informed that its taking place and its contents would be shared with the other members of the Group. This principled position has been included in the frequently asked questions section on the OHCHR nomination and selection of special procedures website.⁵

19. In accordance with paragraphs 44 and 46 of the annex to Human Rights Council resolution 5/1, the Consultative Group sought to address consistently the potential for conflict of interest of all candidates holding decision-making positions in Government or in any other organization or entity as well as the principle of non-accumulation of human rights functions. These issues were clarified during interviews to ensure, inter alia, that if appointed, the candidate should state what steps he or she would be prepared to take with regard to any functions or duties that may give rise to an accumulation of human rights functions and/or any potential conflict of interest.

20. The Group held a total of 54 interviews with 50 shortlisted candidates for the aforementioned mandates (see annex II of this report for the list of interviewees per mandate). These interviews occurred on 11, 12, 13, 18, 19, 20 and 21 November, 13 December 2019 and 16 January 2020, pursuant to paragraph 22 (c) of the annex to Human Rights Council resolution 16/21. Each candidate was asked similar questions based on the relevant provisions of Council resolution 5/1, decision 6/102, resolution 16/21 and Council resolutions relating to the specific mandates under consideration.

21. Shortlisted candidates were able to request in advance and make use of interpretation in one of the six official languages of the United Nations during their interviews, pursuant to the President's statement 29/1 of 3 July 2015. Fluency in one of the two working languages of the United Nations was also assessed by the members of the Consultative Group for all candidates.

22. The decisions of the Consultative Group were taken by consensus.
