

“Snapshot” presentations

The 2017 and 2018 Forums featured tracks with “snapshot” presentations of practice examples and experiences, tools, and new research.

Due to the space limitations for the 2019 event, only a limited number of such presentations may be included in the programme. However, in order to enable wider exchange of new insights and developments, interested parties can submit 2-minute video presentations/lightning talks that may be posted on a dedicated online platform linked to the 2019 Forum. These may feature relevant new research, tools and initiatives focused on implementation of one or more of the three pillars of the Guiding Principles. In order to spur new thinking, presentations may also highlight relevant lessons from other fields (for example, anti-corruption, business ethics, development, behavioural economics). A small selection of presenters may be invited to participate in the snapshot track at the Forum.

Instructions for submitting video presentations:

- 2-minute video file (mp4 format)
- 1-page attachment describing the content
- Snappy presentations focused on new and forward-looking insights
- Send to forumbhr@ohchr.org by 1 June.
