**Information related to the implementation of
UN Convention on Rights of Persons with Disabilities in the Republic of Armenia**

The Republic of Armenia has ratified UN Convention on Rights of Persons with Disabilities on May 2010. The analysis of current legislation has been conducted within this framework in order to bring it into compliance with the provisions of the Convention. Particularly, the draft law of RA on “Protection of the Rights of Persons with Disabilities and Social Inclusion” is currently in the process of development which reflects the principle of social inclusion of persons with disabilities instead of mere social protection.

Activities aimed at the elaboration of the Concept Paper for introduction of the new social model of disability are also ongoing, which foresees introduction of new model for disability definition on the basis of assessment of capacity for work.
