The \$6T Black Folks Plan Reparations Plan for the USA is built on a framework that includes already \$194B in bank-based Community Benefit Agreements and the trillion of dollars in Quantitative Easing authority in place currently.

This work draws on our email to the Civil Society Appeal To Member States on the 2020 FfD Forum on March 30, 2020. The civil society organizations listed at the end of this letter and the Commonwealth of the African Diaspora wish to encourage the UN Member States, Civil Society and those who will participate during the remaining period of the International Decade for People of African Descent under its theme of "People of African descent: recognition, justice, and development" to help lead to full recovery of the world economy from the COVID-19 global emergency.

This work is based on the proposed creation of the African Diaspora Directorate (AfDiDi) in our submission to the 24th session of the Working Group of Experts on People of African Descent (WGEPAD) public session entitled "Data for Racial Justice" held in Geneva from 25-29 March 2019.

The Global Black Folks Plan is based on the AfDiDi co-Founders Friends of the African Union, participation, at the invitation of the International Chamber of Commerce, in the International Business Forum on July 14th, 2015 at the Third Financing for Development Conference, Addis Ababa, Ethiopia July 2015.

We updated that \$5T work in a presentation we presented the U.S. Government United Periodic Review NGO Consultation Event on Monday, January 27, 2020, at the U.S. State Department, presided over by the Bureau of Democracy, Human Rights, and Labor's Acting Principal Assistant Secretary Scott Busby. **AfDiDi did deliver remarks around its now \$6T Black Folks Plan Reparations proposal** based on this statement President Trump said in remarks at the 2019 National Historically Black Colleges and Universities Week Conference on September 10, 2019, "The first and highest duty of government is to take care of its own citizens. African Americans built this nation through generations of blood, sweat, and tears. And you, like all of our citizens, are entitled to a government that puts your needs, your interests, and your families first."

Following that, we have built on that a \$6T Proposal committed to addressing any legacy of institutionalized and systematic racism against people of African Heritage, in the USA and that the US State Department responded to on Nov 12th, 2020 on how they expected us to respond to our unsolicited proposal,

We agree with Dr. Martin Luther King, Jr. who said, "**Freedom is never voluntarily given by the oppressor; it must be demanded by the oppressed.**"

Now with a \$30T Global Black Folks Plan in light of the Global Pandemic and needs of the world exposed in the work of the WGEPAD, Third Financing for Development Conference and the Sustainable Development Goals..

The \$30T Global Black Folks Plan is our demand to meet the demands of the world and will deliver an implementation plan by no later than August 25th, 2021. In it, we include executive action by the United States Government, including a Federal Reserve Quantitative Easing based debt purchasing program (The Daniels IDIQ), as part of the proposed public-private partnership (P3), a superset of United Nations Sustainable Development Goal 17.

It is meant to be a solution, in part, of the Global Pandemic and for the fundamental injustice, cruelty, brutality, and inhumanity of African people enslaved in chattel slavery from about 700AD. We do this work, in part, as Americans who is one of the 14 nations who are signatories to the Treaty of Berlin (1885) and its updates, and by our action, we can address the damage incurred by past and current government and private sector action against freed African slaves and their descendants and subsequently de jure and de facto of institutionalized systematic racial and economic discrimination against citizens of African Heritage.

It can be a stimulus to the Global Economy that is judicious and can be implemented at a specialized Financing for Development (FfD) Forum during a 2021 Permanent Forum for People of African Descent called by national sponsors.

Under our plan based on civil society action in a P3 using the FfD process that can be simultaneously universal in the development of its \$30T Global Black Folks Plan use of proceeds with over \$9T for restructuring global response to the global health emergency and the exposed institutional disparities, it has exposed.

Our Black Folks Plan Domestic Health Care Program will constitute a P3 healthcare service demonstration whose operations work for all and aims to eliminate continual all racial and ethnic discrimination in health care for People of African Descent. This partnership would also focus on the health of youth, veterans, and People with Disabilities. To effect this method, we must contemplate a broad framework that is sustainable, strong, and serviceable. Our model will build on the current national health care delivery system structures that operate using challenging principles guided by how we finance, organize, practice, distribute, and deliver health care services.

We do this work through the AfDiDi Secretariat Health Care Council convened by Glendora Claybrooks, Ph.D. Candidate, GCPM, and MHA. She is a GIAC Certified Project Manager (GCPM) whose certification validates a practitioner's knowledge of technical project management methodology and implementation. GCPM certification holders have demonstrated the critical skill sets associated with making projects successful, including effective communication and time, cost, quality, procurement, and risk management of IT projects and application development. In addition, she is the holder of a Master of Healthcare Administration (MHA) whose master's-level professional degree is granted to students who complete a course of study in the knowledge and competencies needed for careers in health administration, involving the management of hospitals and other health services organizations, as well as public health infrastructure and consulting.

Under her leadership, the African Diaspora Directorate Secretariat Health Care Council will work in the coming years to achieve universal health coverage for People of African Descent in the Global African Diaspora. Coverage will include financial risk protection and access to essential, safe, effective, affordable, and high-quality health care services, medicines, and vaccines for all. Our global public partner in this would include the Commonwealth of the African Diaspora ([Http://www.COAD.BLACK](http://www.COAD.BLACK)).

We will call on the Member States and international institutions to take policy decisions based on leadership from People of African Descent in a coordinated fashion, aware that sometimes newly adopted policies may need to be adjusted as national situations spiral into further distress.

In doing this work will support human rights based on the Universal Declaration of Human Rights and will use the United Nations Universal Periodic Review as our tool of identifying problems and the Daniels IDIQ as the implementation of financial solutions while FAU smartWISE Community Reinvestment Coalitions do so at a local, regional and or state level and Sons and Daughters of African and or FAU Bureaus at national levels.

Signed by the African Diaspora Directorate, its affiliates, members along with co-founders Sons and Daughters of Africa, the African American Agriculturalist Association, the Black Wall Street Cooperative, Universal Negro Improvement Association and African Communities League and Friends of the African Union and the Commonwealth of the African Diaspora.
