I. Introduction

1. Background of commune

Preaek Tnoat commune is in Tuek Chhou district, Kampot province and bordering the east and north are next to Kaoh Touch commune, Tuek Chhou district and the west is next to Tuek Thla commune, Prey Nob district, Preah Sihanouk province and the south is next to the sea. The structures of work of police are administration, armed force, navel protection force, environment, fishery and economy. The security is good because there is good cooperation between authorities in the border of provinces and communes including security guards. Generally, two security guards travel with the community to gather issues and offense.

There were 4 villages such as Trapeang Ropov village, Preaek Kraeng village, Preaek Tnoat village and Changhaon village. There are 1977 families that include 10466 citizens, 5191 males and 5275 females, 6412 citizens in over 18-year-olds with 3285 females. There are primary, secondary and high schools including one hospital. There are 3 main communities such as natural resource protection, forest and fishery. At present, there are 2 NGOs in the commune. For example, clean the water system and toilet construction in each citizen’s house. In this area, it’s good for fishing and tourism with a natural diver ecosystem. There are 3 nationalities, 1020 families of Khmer, 3 families of Vietnamese and 299 families of Muslim include 1333 citizens, 749 males and 584 females, 975 citizens in over 18-year-olds with 498 females. This commune is next to the sea, making it easy to visit the sea and restaurants, tourist areas such as Preaek Tnoat and Trapeang Ropov Preaek Kraeng communities with beautiful views, large trees with cool shade to attract all tourists and easy to eat seafood.

2. History of Muslim discrimination in commune

On February 27, 2020, there are 79 Cambodian Muslim participated in a religious gathering in Malaysia which led to cluster transmissions of the coronavirus in Malaysia and sparked fears of an outbreak among Cambodians. Members of the public posted hateful Facebook comments in reaction to the Health Ministry’s original statement, blaming Cambodia’s Muslim communities for the spread of the virus in the country. Cambodian Muslims, particularly in Phnom Penh, have since reported facing discrimination, such as people refusing to sell or buy products from them, or to exchange

1. Conclusion

In early April, a 30-year-old Cambodian Muslim man named Mat Pros Him who is living in Trapeang Ropov village, Preaek Tnoat commune, Teuk Chhou district, Kampot province, was one of 79 Cambodian Muslims that attended religious ceremonies in Malaysia and return to Cambodia. so when that man returned from Malaysia to be isolated for 14 days at Kep Provincial Referral Hospital under the condition that he infected Covid19 from covid19 patients. After the news that there was a medical examination and masks distribution in Trapeang Ropov village, we saw that there were many sharing of bad rumors that said the Cambodia Muslims in Trapeang Ropov village spread the disease Covid-19 to all citizens, and most of them were vendors and small business at local community who showed a narrow and discriminatory attitude towards Cambodia Muslims. An ACT network member from the Muslim community in Prek Tnaot commune has been affected to her family, her business and her Muslim community.

The assessment had conducted with 50 participants “20 ladies” who including 33 community people and 17 local authority officials from four villages in Preaek Tnoat commune, Teuk Chhou district, Kampot province. There are 2 villages in Preaek Tnoat commune who had Muslim living such as Preaek Tnoat and Trapeang Ropov village. These assessments in order to collecting discrimination impact of Covid-19 against Khmer Muslim and to understand more and mechanism of the local authorities, Muslim communities and citizen engaged in eliminate, issues resolution, interpretation and prevention/ protection of Covid-19 and discrimination against Muslims. There are 100% of responses that had known about the Covid19 and discrimination against Muslims. There are 2% of non-Muslim discrimination, 2% of non-discrimination on their area, 84% of Muslim discriminatory behaviors and 32% of Muslim discriminatory orals. There are 74% of raise awareness and promotion on Covid19 and Muslim discrimination, 28% of no reactions on Muslim discrimination, 26% of be normal action on non-Muslim discrimination, 18% of donating on non-Muslim discrimination, and 80% of prevention and protection on Covid19. There are 76% of no cases of violence, 22% of verbal conflicts with a lack of understanding and consideration and 2% of sellers who had oral conflict on Facebook.

According to the suggestion from community people and local authority officials that asking ACT to providing the materials such as masks and alcohol to all villages in Preaek Tnoat commune and raise awareness about discrimination against Muslim to all authorities and citizens by training on community dialogues and asking on provide the poster, leaflets and banner of slogan on non-discrimination to each community. So ACT had support some materials such as masks and alcohol to police officers and providing the leaflets on how to prevent the Covid19 and banner of slogan on non-discrimination to local authority officials.

2. Recommendation

A. Local Authority
- Should be involved and participated with ACT in order to share more information and promoted community dialogues in their commune as much as possible.
- Should encourage the citizens to join the community activities and conduct public forum on Muslims discrimination and Covid-19 every month with their own budgets.

B. Community People
- Should be confident on asking and suggestion for getting the solution from any issues to authorities on public forum and community dialogues that support by any NGOs.
- Should participated community activities and public forum as much as possible in order to correct the authorities’ action.
- Wish to have more fund support on faiths and ethnic for co-existing in the communities to eliminate the misunderstanding at underground discrimination.
