Object: Free of Charge from a colonialism Tax

Dear Sir/Madam

Brain Sluice Africa Child's as an accredited organisation in consultation status with the Economic and Social Council, recognised under its resolution 1996/31 of the 25 July 1996 of the United Nations, since on 06 June 2019. It submitted a current proposition to a member of the Council in full respect of a paragraph (31) (a) (b) (c) (e), also in consideration of its resolution of 2008/24 and it wants to make a point on the insensitive effect of the Colonialism in Democratic Republic of the Congo which made Belgium to be a Capital of economic in Europe.

In fact, there is a big stamp of crime against humanity Congolese people heart since 1808 up today but they still want to see how Belgium will fix what *the King Leopold* has done on their interested. As he used to instruct his security service to cut off the lips, penis, hands of those who were not willing to fill up what was its demand of production a day and rape of the Congolese women, he destroyed the Congolese culture with tribalism, used involuntarily for its HIV medical test on them, this attitude of supremacy has cost the life to some of the opinion leaders such as *Paul panda* after serving as a soldier under Germany flag, *Kimpa Vita*, *Simon Kibangu* and *Patrice Emery Lumumba* then this require a minimum consideration in their memory.

Actually, most of the soldiers who fought on second war under its flag, they have died on extremely poverty, they are families members are leaving in extremely poor condition from a generation but its political shade still move again behind of assassination of the Congolese political leaders even today, unfortunately the Democratic Republic of the Congo seems to pay a colonial tax and the Human Right Council could act with an immediate effect on the following points then calls upon Belgium to:

- drop off its colonial tax against Democratic Republic of the Congo
- Return back officially whatever belong to the Congolese
- Return back the tooth of *Patrice Emery Lumumba* officially
- Declare a public holy day in memory of the ancient combatants in Belgium
- Schedule a service church in Belgium to honour a memory of those 3 first opinion leaders killed during a colonial period.
- Review a traveling visa restriction on behalf the Congolese people
- Free training of the different skills for the ancient combatants families members

The Human Right Council, the Economic and Social Council at United Nations could set up ad Hoc Commission which will be able to adjust the politically, military, economic and social cooperation signed under colonialism text through an arbitration therefore it will reconcile these two Nations, hopefully that the members of the Council will treat this case with a kindness.

I thank you for your assistance

Kebengele Guy Dibwe
Chief Executive Officer
